Company Profile

ICS — International Chemical Supplier & Manufacturer

ICS manufactures and supplies textile processing chemicals — pretreatment, dyeing auxiliaries, finishing, printing and specialty chemistry — for textile mills, dye houses, denim and garment manufacturers across 30+ countries. Founded in 2008, ICS operates four dedicated production lines alongside an in-house formulation and quality-control laboratory.

Mission

Formulate textile chemistry that performs consistently at production scale, backed by technical support mills can actually reach.

Facility

Four dedicated production lines — pretreatment, dyeing, silicone and finishing — plus an in-house laboratory for formulation trials and incoming raw-material testing.

Certifications

ISO 9001, OEKO-TEX Standard 100 aligned formulations, REACH compliance statement available on request.

Export

Direct export relationships across South & Southeast Asia, the Middle East and East Africa, with full documentation support for international buyers.
