ICS | International Chemical Supplier & Manufacturer

Compliance Statement

REACH Regulation (EC) No 1907/2006

ICS formulates its textile chemical range with awareness of REACH substance restrictions relevant to textile auxiliaries supplied into EU and EU-aligned markets. Substance-level compliance documentation is available per product on request, referencing the applicable Candidate List and Annex XVII restrictions at time of shipment.

This statement covers general formulation practice and does not substitute a shipment-specific compliance declaration. Contact our export desk for a declaration matched to a specific purchase order and destination market.

Request a shipment-specific REACH declaration from export@ics-chemicals.com before customs submission.
